

$$\mathcal{V}(c) =$$

A diagram showing a variable c' with a weight box ω above it and an arrow pointing to it.

$$\mathcal{V}\left(\begin{array}{l} \text{if } c \text{ then } \text{MNil} \\ \text{else } \text{MCons}(e_1, e_2) \end{array}\right) =$$

$$\mathcal{V}(e_i) =$$

A diagram showing a variable v_i with a weight box ω_i above it and an arrow pointing to it.
